

Supper Sleuths

Culinary Mysteries

Selected Titles from Favorite Authors

Located in the Fiction Collection under the Author's Last Name

Culinary mysteries are usually Cozies that prominently feature food or cooking, sometimes with recipes included. The sleuths are almost always amateurs who have sniffed out a murder or a crime. The detective may dine well, or may run a catering service, restaurant or bakery. The sleuth is usually, but not always, a woman who solves the mystery through intuition and her knowledge of human nature. Fine dining meets murder!
